

KPR Secondary Course Outline

School Name: _____ Course Code /Title **FIF 2D** Credit Value _____

Teacher Name: _____ Email/Phone / Class website _____

Course Description:

This course enables students to increase their knowledge of the French language and to further develop their language skills through the study of twentieth-century European francophone literature and culture. Students will participate in oral communication, reading, and writing activities based on a variety of French literary and media works. They will study at least one novel and a selection of poems, short stories, films, plays, and newspaper and magazine articles.

Area of emphasis (as applicable for focus courses)

Learning Skills and Work Habits

Responsibility, Organization, Independent Work, Collaboration, Initiative, Self Regulation

Learning skills and work habits will be intentionally taught, assessed and evaluated separately from curriculum. They are strong indicators of potential successes and difficulties. Parents can help students by supporting the use of these skills and consistent efforts to learn. Learning Skills and Work Habits are reported on by E (Excellent), G (Good), S (Satisfactory) and N (Needs Improvement) on Progress Reports and Provincial Report Cards.

Assessment and Evaluation:

The grade on a student's report card will involve teachers' professional judgement and interpretation of evidence using the achievement charts. The averaging of marks shall not be the *sole* determinant of a final grade.

Teachers will take all observations, conversations and products as evidence that students are learning the curriculum. This learning is more than just knowing the facts, it refers also to the ways students show their thinking, communicate their understanding and apply what they have learned through use of critical thinking and problem solving.

Teacher professional judgement will be informed by most consistent, more recent evidence of student learning based on *assessment for learning opportunities, achievement chart weighting, and assignments for evaluation* and support the determination of the final grade.

- 70 % of the final grade will be based on assessments and assignments for evaluations conducted throughout the course
- 30 % of the final grade will be based on rich assignments for evaluation in the form of written exams, demonstrations, performances, presentations and /or other methods of assessment suitable to the course content and administered toward the end of the course reflective of the achievement chart categories

Assessment is the process of gathering, from a variety of sources, information that accurately reflects how well a student is achieving the curriculum expectations in a subject or course and the learning skills and work habits.

Assessment for learning is the ongoing process of gathering and interpreting evidence about student learning. The information gathered is used by teachers to adjust instruction and provide feedback and by students to focus their learning and next steps. Assessment for learning takes place while the student is still learning and serves to promote learning.

Evaluation is the process of judging the quality of student learning on the basis of established criteria and assigning a value to represent that quality. Evaluation is based on assessments of learning that provide data on student achievement.

Homework

Homework is work that students do at home to practise learned skills, consolidate knowledge and skills, and/or prepare for the next class. Information collected through homework completion will be used as data to inform instruction.

Late and Missed Assignments

Students will provide evidence of their learning within established timelines and recognize that there will be consequences for not completing work or submitting work late. The teacher will clearly indicate the due date for completion of an assignment. A missed *assignment for evaluation* is one that is not submitted or completed. Before an assignment can be considered missed:

- the student must be given an opportunity to explain the incompletion
- students and parents have been informed of the late assignment and the consequences for a missed assignment.

An assignment for evaluation is used to evaluate student learning. Most assignments for evaluation are rich performance tasks, demonstrations, projects or essays. Assignments for evaluation will be instructed and worked on in class with ongoing descriptive feedback from the teacher; there could be times when assignments for evaluation are refined at home.

Cheating and Plagiarism

All student evidence of learning must be his/her own, original work. Academic honesty is a cornerstone of student learning. Cheating and plagiarism are academic dishonesty; both are forms of lying and they are a serious academic offense. When a principal determines that a student has cheated or plagiarized, there will be a continuum of behavioural and academic responses and consequences based on the grade level of the student, the maturity of the student, the number and frequency of incidents and the individual circumstances of the student. For additional information about Cheating and Plagiarism see KPR's Assessment, Evaluation and Reporting Policy <http://kprcontentlibrary.kprdsb.ca:8080/docushare/dsweb/View/Collection-55>

Overview of Study

Course Code / Title: FIF 2D

Strands of Study <i>(70 % of the final grade will be based on assessments and assignments for evaluations conducted throughout the course)</i>	Distribution of Achievement Chart Categories <i>(Knowledge & Understanding, Thinking, Communication and Application)</i>	Culminating Tasks and/or Exam <i>(30 % of the final grade will be based on rich assignments for evaluations toward the end of the course reflective of the achievement chart categories.)</i>	Distribution of Achievement Chart Categories for each culminating task and/or exam <i>(Knowledge & Understanding, Thinking, Communication and Application)</i>
<p>xxxxxOral communication (50%)</p> <p>Reading (25%)</p> <p>Writing (25%)</p>	<p>Knowledge and Understanding 20%</p> <p>Thinking 20%</p> <p>Communication 35%</p> <p>Application 25%</p>	<p>30%</p>	<p>30%</p>

COMMON COURSE OUTLINE - ACHIEVEMENT CHARTS

French as a Second Language, Grades 9 -10

Knowledge and Understanding - Subject-specific content acquired in each course (knowledge), and the comprehension of its meaning and significance (understanding).

Knowledge of language forms and conventions
 Understanding of content

Thinking - The use of critical and creative thinking skills and/or processes.

Critical and creative thinking skills
 Inquiry skills (e.g., formulating questions; planning; selecting strategies and resources; analyzing, interpreting, and assessing information; forming conclusions)

Communication - The conveying of meaning through various forms

Communication of information and ideas
 Use of language
 Communication for different audiences and purposes, using various forms

Application - The use of knowledge and skills to make connections within and between various contexts

Application of knowledge and skills in familiar contexts
 Use of the language in new contexts
 Making connections (e.g., between personal experiences and the subject, between FSL and other subjects, and between FSL and the world outside the school)
